Attendance Journals

Access detailed attendance records for each employee over specified periods.

Anomaly Detection

Identify and rectify issues such as missing or erroneous time entries.

Custom Reports

Generate reports tailored to meet specific organizational needs.

Data Visualization Tools

Utilize graphs and charts for better insights into attendance trends.

Customization Options of AcurTime5

Explore the extensive customization capabilities

Display Customization

Tailor the layout and visibility of UI columns to suit user needs.

Filtering and Searching

Apply filters based on date, employee, or absence reason for precise data retrieval.

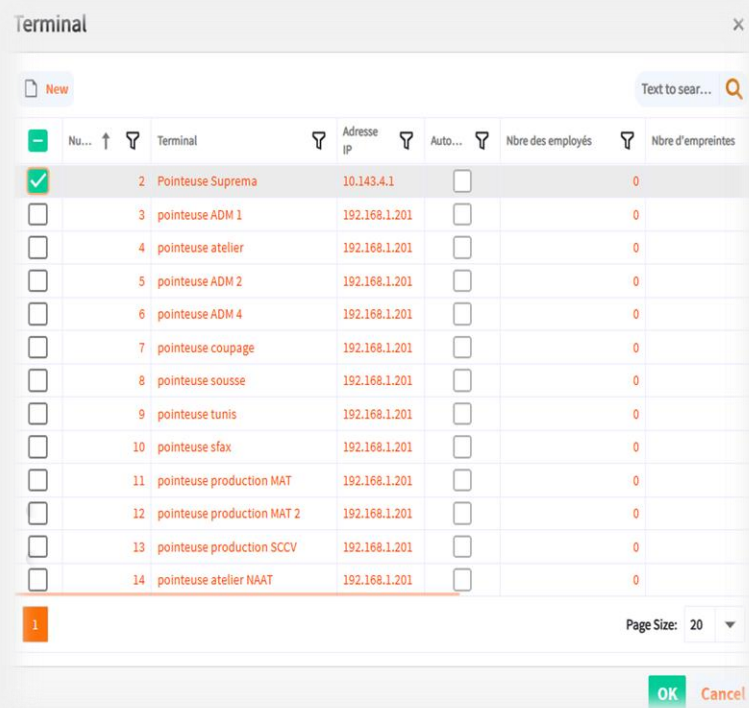

Personalized User Experience

Customize dashboards and reports for a more efficient workflow tailored to individual users.

Integration with Timekeeping Devices

Key Features of Timekeeping Integration

The screenshot shows a web application window titled 'Terminal'. It contains a table with columns for device selection, ID, name, IP address, and employee count. The first device, 'Pointeuse Suprema', is selected with a green checkmark. Below the table, there is a 'Page Size' dropdown set to 20 and 'OK' and 'Cancel' buttons.

	Nu...	Terminal	Adresse IP	Auto...	Nbre des employés	Nbre d'empreintes
